AUDIO SOLUTIONS
HANDCRAFTED IN FRANCE

FOCAL®
For more than four decades, Focal has created speaker drivers and high-end loudspeakers that deliver a unique sound. Our brand values are innovation and performance; excellence and pleasure. We are globally renowned for our exclusive technologies. The result of this technological heritage is class-leading products offering a natural, authentic performance, imbued with clarity and power. With our collection of acoustic loudspeakers, we bring you excellent listening quality, both in stereo and Home Cinema set ups, through solutions with an exceptional design.
The embodiment of Focal excellence, the Utopia III Evo line is distinguished by its incredible silhouette, cutting-edge, exclusive technology, finishes inspired by the luxury car industry and, of course, the unrivalled listening experience they deliver. They are also home to the best components of their generation, like their cabling that is manufactured in France. Utopia is an icon, and still streets ahead of the rest.

The ultimate sound

Grande Utopia has left an indelible mark with each generation; it is Focal’s most successful concept. With its exceptional performance and unique style, it is no longer simply a monument to technology, it is also a sound sculpture. Each speaker driver is housed inside a separate box. These boxes make up the spectacular spinal column of the loudspeaker and can be tilted by a dedicated handle. This adjustable ‘Focus Time’ function means you can achieve an absolutely perfect sound image based on the configuration of your room.

03. KANTA

Performance meets style

Kanta is all about superb performance in an even more tightly controlled space. Precision, detail, warmth and musical sounding are its key sound characteristics. The range also stands out for its modern design and decidedly disruptive aesthetics. The front panels of its four models, in either a lacquered or a matte finish, offer various combination options to cater to all tastes and to suit diverse environments.
