The power of this new Chorus SW 700 V High Power has been increased to 550 Watts RMS. The 11" Polyglass subwoofer has been entirely re-engineered to support this increased power. The motor now features a double ferrite magnet and is combined with a larger voice coil, resulting in increased power handling and an extended frequency response of up to 30Hz. This brand new subwoofer delivers amazing performance enhancements with more dynamics and a power output of 117dB SPL. More than ever, it surpasses others in its category by far.
